Python django developer with 3.5 years of hands-on experience in building scalable web and mobile applications using **Django and Django REST Framework with DB MYSQL** .Designing robust backend architectures, developing RESTful APIs, and integrating third-party services. Proven ability to deliver high-quality, secure. Passionate about clean code, performance optimization, and continuous learning.

Experience

Sr. Python developer, Muks Robotics AI Pvt.Ltd – Pune,Maharashtra June 2025 – Current

Project - Guardeo Control App

- Developed a cross-platform Desktop app using with **Django PWA** for the backend for Guardeo robot to place track location,get live streaming, and communicate directly with the robot .
- Designed and implemented RESTful APIs using **Django REST Framework (DRF)** for OTP authentication and seamless server communication to app .
- Utilized libraries such as opencv,django-channel,etc.

Python developer, Servicenet Technologies Pvt.Ltd – Nagpur,Maharashtra May 2022 – May 2025

Project - Dealers App

- Developed a cross-platform mobile app using Flutter with **Django and DRF** for the backend for Kurlon company's dealers to place orders, track data, and communicate directly with the company .
- Designed and implemented RESTful APIs using **Django REST Framework (DRF)** for OTP authentication and seamless server communication to store and retrieve app data.
- Utilized libraries such as random, PIL, and Pyrfc to handle functionalities like data generation, image processing, and SAP integration on the backend.
- Managed database interactions using MySQL, ensuring data integrity, scalability, and performance optimization.

Project - ForeOrder Consumer and Employee App

- Designed and implemented a web-based admin portal for managing orders, clubs, and users using the Tornado Python framework and **PostgreSQL** as the database.
- Developed secure role-based access control, allowing administrators to create, update, and delete clubs and users through an intuitive interface.
- Built RESTful APIs to connect the admin portal with Android and iOS mobile apps for real-time data synchronization.
- **Integrated SMS and email** services to notify users for account verification, password resets, and system alerts.

Automation Engineer, Harshanjali instruments Pvt.Ltd Pune,Maharashtra June 2019 - June 2020

- Worked as an Automation Engineer, specializing in the integration and testing of sensors including fiber optic, photoelectric, acceleration, and vision-based sensors.

Skills

Languages: Python, SQL,HTML,CSS

Framworks: Django, Django REST Framework, Bootstrap 5.

Education

Bachelor of Engineering in Electronics & Telecommunication - CGPA : 7.46 % Sept 2015 – July 2018
